

ALMI ALU- MANUAL PIPE NOTCHER

The Almi range of pipe notching machines are manufactured in Holland and provide the perfect solution to notching tubes prior to welding.

The ALU manual notcher is an excellent cost-effective solution to create an end notch.

With the pipe notcher AL-U you can create an end notch in external pipe diameters from $\varnothing 22$ to $\varnothing 76$ mm

Specifications:

ALMI ALU - Technical Specification	
Suitable for	Ext. pipe diameters $\varnothing 20$ – $\varnothing 76.1$ mm
Advantage	Quick and easy notching of zinc tube
Wall thickness (steel)	3mm
Wall thickness (stainless steel)	2.5mm
Weight	7kg
Operation	Manual
Application	Round, square and rectangular pipe

Features:

EASY USE

With the pipe notcher AL-U you can create an end notch in external pipe diameters from $\varnothing 22$ to $\varnothing 76$ mm. Thanks to the favorable price and high productivity, the ALMI pipe notchers are a great investment. ALMI pipe notchers are available for notching vent slots in round or rectangular pipes from 22 mm externally with a wall thickness of a maximum of 3 mm. You can easily create end notches with little effort thanks to the add-on lever.

EFFECTIVE

All advantages at a glance: high productivity, low investment, simple and fast operation, multiple diameters possible.

SUSTAINABLE

ALMI Pipe notchers are made of high-quality steels, which guarantees a long service life.
